Land and Energy Project Permitting Form

If your project would temporarily alter or permanently change the present state of the Sterling College campus landscape, you are required to complete a project permitting form.

Name(s): _________________________________________________________________________________

Contact information: _______________________________________________________________________

You are:

☐ Faculty  ☐ Staff  ☐ Student  ☐ Other (please list) _______________________

If you are a student proposing a project, please list the faculty and/or staff sponsors.
________________________________________________________________________________________

Type of Project

☐ Buildings & Grounds  ☐ Academic  ☐ Program  ☐ Other (please list) _______________________

Project Description: (Attach sheet of paper, and do not exceed 2 pages.)
Describe how this project will alter the college landscape and land use. Specifically address where on campus the project is proposed and if it is a temporary structure or a permanent structure. Please include the following details:

☐ Timeline of the project from start to finish. Please include a decommissioning plan.
☐ Maintenance plan over life of the project.
☐ Budget: This should be a detailed budget, including materials. If a project requires Sterling lumber or timber from Sterling property, please indicate how much.
